

Dear Santa

I hope you and your elves at the North Pole are well. I know that this is a busy time for you and your reindeer and that you have a lot of miles to cover on your journey around the world.

I have tried to be very good all the year, so I am hoping that you will have a Christmas present for me. I know that you cannot always bring children exactly what they would like, but I have written some of the things that I wish I could have for Christmas if you have them on your sleigh.

.....

.....

I Promise I will be fast asleep on Christmas Eve but I will leave a drink and something to eat for you and your reindeers.

Thank you for all the happiness that you bring to children and grown-ups during Christmas.
